## CAREER OBJECTIVE

Passionate Frontend Developer eager to build responsive and dynamic web applications using React.js, JavaScript, and modern UI frameworks. Strong understanding of web fundamentals and keen to contribute to real-world React projects while continuously learning new technologies.

---

## EDUCATION

- **Bachelor of Engineering in Computer Science and Engineering** 2020 - 2024  
SNS College of Engineering | **CGPA - 8.4**
  - **Higher Secondary School Education** 2019 - 2020  
SLM Matric Higher Secondary School | **71%**
  - **Secondary School Education** 2017 - 2018  
SSM Matric Higher Secondary School | **88%**
- 

## EXPERIENCE

### Besant Technologies

#### Java Fullstack Developer Intern

- Mastered front-end and back-end development using HTML, CSS, JavaScript, and databases, enhancing project efficiency and code quality
  - Created responsive web applications based on design specs and managed server-side logic, contributing to robust full-stack solutions that improved user experience.
- 

## SKILLS

Technical Skills : HTML, CSS, JavaScript, Bootstrap, React js ,Java

Database : MYSQL

Tools : Figma ,GitHub,MS Excel,Eclipse,Visual Studio code

Area of Interest : Application Development using C# and .NET Core

Soft Skills : Team work , Critical Thinking , Communication

---

## PROJECTS

### REACT.JS FRONT-END APPLICATION

- Developed a modular front-end using React 19, Vite 6, and ESLint for code quality.
- Implemented dynamic routing with React Router and applied component-based architecture best practices.
- Set up automated linting and fast refresh configuration to streamline development workflow.

### WEATHER FORCAST

- Developed a Weather Forecast Application using React.js, integrating OpenWeatherMap API to fetch and display live weather updates. Implemented search functionality, conditional rendering, and responsive UI for an enhanced user experience.
-
